Re: Prudential Financial 2012 1L Summer Internship Program

To Whom It May Concern:

I am a first year law student at the Benjamin N. Cardozo School of Law. I am writing to apply for the Prudential Financial 1L Summer Internship Program.

I am very interested in pursuing a legal career within the financial services industry. I believe that my business-focused education has well prepared me for such. I am a graduate of McGill University's Bachelor of Commerce program in Finance and Accounting. I also possess a Masters of Science in Insurance and Risk Management from Cass Business School where I completed my dissertation on Deposit Insurance. My business studies have allowed me to develop strong analytical, research and writing skills that I now utilize as a law student.

For six summers, I was employed by a law firm where I worked on a variety of projects including the preparation of affidavits of documents and assisting in the assessment of a client's account. Working in a fast paced-environment under the supervision of attorneys and the firm's finance department was an enriching experience. Since I am fluent in both English and French, I also benefited from the opportunity to work in both languages. The opportunity to work on a variety of insurance and business law projects, under the supervision of Prudential attorneys, would be one that I would welcome.

In light of the increased regulatory pressure on the financial services industry, I am particularly interested in learning about how companies' operating strategies will be affected. An internship with Prudential would allow me to learn more about this area of the law and would be an invaluable experience. I believe that my business background, including my graduate studies in insurance, would be an asset to Prudential. Furthermore, as a 1L Representative to my law school's OUTlaw group and member of the National LGBT Bar Association, I am particularly drawn to Prudential in light of its commitment to diversity in the workforce.

I attach a copy of my resume, references and academic transcript. I would welcome the opportunity to discuss this prospect with you. Yours very truly,
